1.1 INTRODUCTION

I'm Sofía Rodríguez Ramírez, and I'm excited to share my final report for the WP Credits course.

This report summarizes my contributions to the Polyglots team, the challenges I faced, and the skills I gained. I hope my experience inspires others to contribute to open-source projects!

1.2. TEAMS AND PROJECTS I CONTRIBUTED TO

I've only worked in the Polyglots team.

I focused on that, to improve the
accessibility for the people who don't
speak English.

01

Firstly I started translating the
first plugin or theme that I found.

02

After having a meeting I
discovered how to translate the
most popular plugins and
themes.

1.3. LEARNING RESOURCES

01

Polyglots team
onboarding

02

WordPress
Polyglots Handbook

03

Spanish Glossary.

My mentor, Isotta, organized meetups with some experts to explore other teams and to give us tips for translating.

1.4. CHALLENGES AND SOLUTIONS

CHALLENGES

- **Communication barriers.**
Sometimes when someone corrected your strings and offered some changes they don't specify the error.
- **I didn't know the translation of some words or I didn't how to translated it,**
due to the fact that the literal translation wasn't the correct one for that context.

SOLUTIONS

I resolved this by asking for help in Slack and taking a look into the other translations to find a similar word in Spanish

1.6. KEY LEARNINGS FROM THE WP CREDITS COURSE

The WP credits course taught me:

- The importance of teamwork
- To communicate problems and help other people
- To communicate clearly to solve the problems as fast as possible
- That people that are not native understand your issue
- To work with other people in diferrent countries and timezones.

1.7. NEW SKILLS GAINED

• TECHNICAL

DeepL, technical English depending on the subject of the theme or plugin, Slack.

• SOFT SKILLS

Asynchronous communication, time management, asking for feedback.

1.8. PERSONAL REFLECTIONS AND NEXT STEPS

Working in Wordpress has been an amazing experience! It has a lot of different options to contribute in and the community is so welcoming with everyone, they always try to help you. Moving forward, I would like to try new contributions teams and learn new things. I'd like to know how was the experience of other people!

THANK YOU VERY MUCH!
